Welcome To Q Research General

We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness.

We are researchers who deal in open-source information, reasoned argument, and dank memes. We do battle in the sphere of ideas and ideas only. We neither need nor condone the use of force in our work here.

>the states with Vote in Mail may have more to do with local city, county and state elections more so than just ousting Trump

That's ridiculous

Now in 2020 with the perfect storm of A. Perfected vote fraud ops, and B. A pandemic - they thus have a massive window through all of November to simply create and deliver new ballots

And they are going to manufacture these ballots for state and local offices alone?

No.

The operation that has come together is to take the White House

Movie shows the Baphomet...

And then there is this little thing called

LUCIFERASE

which is being added to the **COVID** Vaccines because of it's bioluminescence.

It will make it possible to confirm you have been vaccinated, it will also come with the Hydrogel nano bots from DARPA which can track you. maybe also change DNA...

Luciferase in this video about the new vaccines

> Planet Wars

1. The inverse square-of-the-distance law for E&M holds in a vacuum but space is not a vacuum; it is low density plasma which can conduct electricity very well.
2. You are assuming as most do that the planets were always in the orbits that they occupy now. Many different lines of evidence indicates this is not the case and extensive planet migration has occurred.

FYI.

About this project

And escape emotional suffering, doubt, remorse, regret, themselves.

Only when they are caught do they suffer.

Think of Comey. Not a moment of hesitation in his bold lies.

Totally self-satisfied, pleased at his own ability to manipulate, deluded by his narcissism to feel he is invulnerable.

Once he's caught and in prison he will suffer and be sad, but only for himself. And only to blame others.

He will never regret the hurt he did to others and to the Country.

Read 20 books on psychopaths, think about it, and figure it out for yourself? This is how far I got on it.

Same Tactics for 80 Years...

86 Cong. Rec. (Bound) - House of Representatives: **May 27, 1940**

I want to call attention to the fact that one of the most cruel and inhuman activities of these "fifth columns" has been **with reference to the Negroes of this country**. For years the **Communists**, and probably the **Nazis and the Fascists**, have been working among the **colored people of this Nation trying to stir them up against the white people of the country**, and particularly in the South.

Just the other day we had the most astonishing manifestation of it I have ever known when the so-called **Negro Congress** met here in Washington and declared that if we got into a war with Communist Russia **they would not fight for the United States**. Some of the better Negroes got up and walked out. One said, "You are trying to add to our handicap of being black the additional handicap of being 'red.'" He knew what it meant. **The sensible, law-abiding Negroes of the South know what it means.**

Q turned out to be a complete failure. No arrests not even one. All of the criminal traitors responsible for 9/11 and foreign wars are completely free. Trump never was going to drain the swamp. Enjoy your 100 nights of BLM riots, anons. There will be hundreds more. Looks like patriots will be having to drain the swamp ourselves. I have no problem with that, but I wish Q wouldn't have been a fucking lying con artist for several years. Patriots should have been told from the very beginning that we would be the ones having to do Trump's heavy lifting because he was too big of a pussy bitch to do it himself. What a complete fucking joke. The deep state traitors are laughing their asses off right now.

yes, I saw this

The "do - gooders" tell them how they should hate whitey and how they are being fucked over.

I saw it up close.

The controllers read too much of the wrong Propaganda.

And they want to burn down your house if you are a "gentrifier"

They think property is unimportant

And that the land of the USA belongs to the "suffering peoples of the world"

There should be no borders.

The USA was founded upon evil and genocide, etc. , etc.,

I know them.

they are atheist. If they find out your ancestors were original european settlers, they will want to kill you.

I said before "they want to kill Trump nd Trump supporters" and it sounded at the time "over the top"

though I completely believed it and knew it to be true.

Yet now it's come to a more public level where they've shown themself, and what I said and wrote in the past is proved true.

They really want to kill us.

Is this another color revolution?

Why is this uprising being praised by Michael McFaul on Twitter?

Apparently he is a clown, too.

This intellectual arrogant deep state fraud is spreading rumors that Trump has "lost" his communities in DC (intelligence, state, military)

In reality, Trump is out of their control and they are freaking out. They are going to use All Their Tools. gearing our population up for own color revolution. Purple Tshirt anyone??

Democrats Will Steal The Election

Whether you like it or not America is going HOT.

MAGA patriots will do the heavy lifting to protect president Trump after the election.

Do democrats realize how many heavily armed MAGA patriots will show up at the white house in Washington DC if they try to illegally remove Trump?It will be biblical.

Do democrats know patriots with serious warfare skills are prepared and have been waiting patiently for the opportunity to drain the DC swamp ourselves with massive force?

President Trump is the hardest working president in US history and he has kept his promises.

We The People It's Go Time

President Trump patriots stand at the ready.

At least 14 million Americans will walk into combat tomorrow for president Trump.

meh...this op is too sophisticated for there to be no rhyme or reason. We just don't [usually] know it in advance. If we did, it wouldn't be adequately sophisticated (hate that word, but makes the point) to outsmart its enemies.

I think the targeted arrests are removing the serious agitators. Very quickly, the only ones left aren't interested in violence.

At the same time, the agitators had been active, well known and looked up to by the dupes, so many dupes will be aware of the terms of the arrests. The risk of years or even months in prison is a REALLY good reason to stay home.

I agree. I should've worded my assertion more clearly. The FIRST objective of the operation is to remove
Potus. They are planting that narrative now, but they are also admitting it will initially look like Trump has
won, until they can make "every vote count". However, there is a lot at stake with state and local
governments as well. Covid has woken many and exposed a lot of would be dictators. If certain
traditionally blue states flip to Trump, it will be hard to justify how the same Dem governors, mayors,
AG's, DA's, city and county officials were able to hold on to their power through the same votes that
elected Trump. It is much more difficult to destabilize the country and hinder POTUS if they no longer
have control over their states and their local populations. So yes, they planned it for the Presidential
race, but the left never gives up power willingly and they want to keep the current power/control over
their populations as well as gain additional power/control. Never let a crisis go to waste, so why not add
an additional objective of keeping/obtaining power by also electing multiple individuals covering large
areas of the country, allowing these areas to create coalitions with the sole purpose of hindering
President Trump obstructing and dismantling his platform and everything he has accomplished.

Trump wouldn't fight for us, so I sure as shit won't fight for him. If the Dems want to remove Trump, I don't give a shit. But once patriots completely wipe those traitors out, a real leader for America can emerge. Someone who isn't going to put up with BLM marxist bullshit and will protect Americans and our history. Trump isn't doing shit to stop the traitors. Zero arrests, Zero criminal prosecutions. Deep state traitors remain completely free. Fuck this bullshit. I hope Trump loses so patriots will finally wake the fuck up.

>Not trying to slide...

Yeah you are.

Don't lie.

This slide has been going on for over two years now.

Strange how no one ever talks about the actual interview with the couch buddy. Which is loaded with precious gems, btw.

But seriously, though. I'm pretty sure the guy on the couch was really JFK Jr from the future time-traveling back to the past to spy on hussein for Trump during the Mayan Apocalypse, which created the rift in "space-time" to allow the whole continuum thingy to continue in the first place, which somehow was likely caused that one time in space camp when the Pleiadeians probed Uranus, but I swear that none of that is a slide. I'd sauce it, but clearly there's way to much ground so you should all totally just spend hours looking into it, because even though there's no real proof "proof", if you, like, totally believesies, and I, like, totally believesies, too, then together we can both convince the world just how bat-shit-crazy we QAnoners can be, right?

It needs to stay cool.

However think of all the combat trained vets who lost friends needlessly at the hands of the same people who bring you ANTIFA every night. Wars without reason other than big money and worse. That's a lot of motivation against semi trained thugs. It would not be pretty. Little if no sempathy for any of the ANTIFA et-al crowd caught with a weapon or remotely involved with destabilization. Human emotions are what they are . Pray it doesn't happen but if it does pray for the soul of our nation and the souls of the enemy, there will be no mercy for them in this land. The wrath upon them will be beyond human comprehension.

Never because Trump doesn't care if the cities burn and innocent Americans get killed by BLM because he believes it's helping him in the polls. It's sick. If he would have arrested the traitors, like he said he was going to do, then they wouldn't be orchestrating 100 nights of violent marxist revolution. Trump is such a fucking lying con artist. Only reason many still support him at this point is because they still believe the Q bullshit.

Democrats be very careful when you try to remove Trump from the white house.

American people own the government in America not the corrupted democrat party.
